**ACE
AFRICA**

Action in the Community
Environment

ACE Africa works in remote rural areas of Kenya and Tanzania, where poverty and HIV/AIDS are rife, helping orphans and vulnerable children to reach their full potential. ACE provides short-term emergency aid including counselling, medication and school bursaries and empowers thousands of local volunteers with skills to support children in the long term. We train whole communities in nutrition, related business skills and HIV/AIDS education and help to protect the rights of children, women and people living with HIV/AIDS.

You can learn more about ACE at www.ace-africa.org
